

Assessment

Gain invaluable knowledge about the potential of your employees.
Try Elevato Software. **See the new dimension of HR.**

Assessment

Innovation, potential, development, intellect

Assessment is a crucial element in human resources management and provides a starting point for every stage of the process.

The Elevato Software system is an innovative tool used to evaluate employees based on competency model. Automating and speeding up the process results in business benefits such as time and cost savings and, most importantly, gaining invaluable knowledge regarding employees. Employee assessment will no longer be a time-consuming process that requires writing a number of documents and ultimately brings little value to the company's operations.

180° assessment conducted on the basis of criteria defined by the HR department for a particular position or employee.

360° assessment providing a thorough image of employee competence and performance quality.

Reducing time and cost needed to prepare and conduct employee assessment.

Analysis of competence gaps in the company.

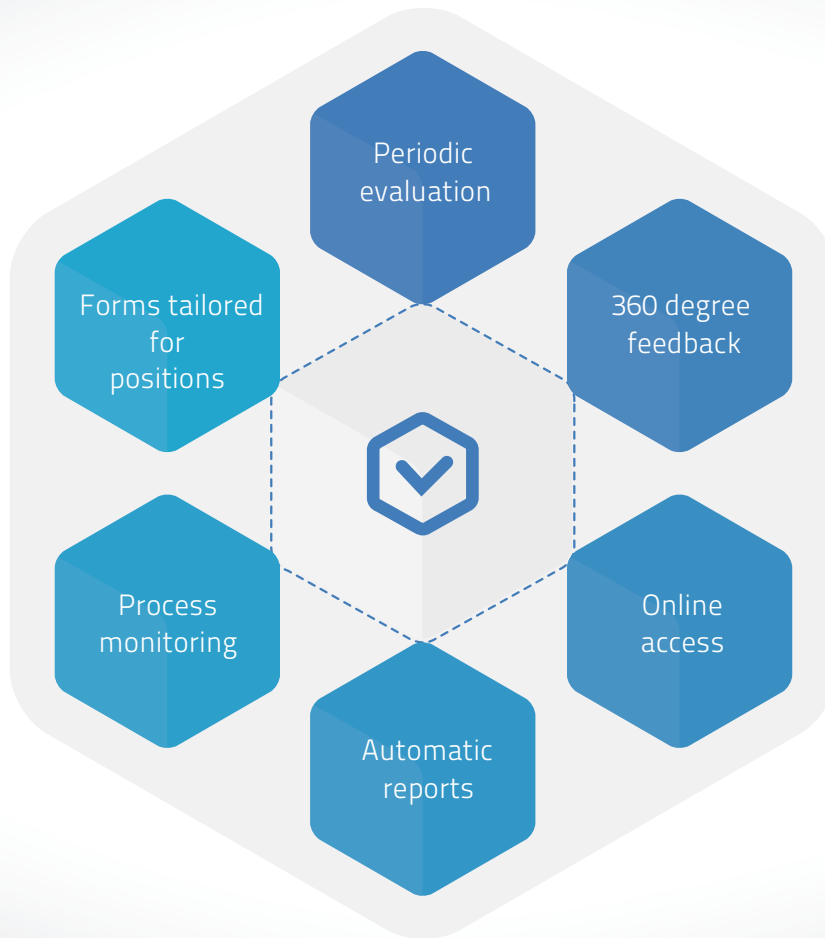

Reducing time spent on filling forms - time saved may be used to work on the strategic company tasks.

Assessment performed in accordance with the processes defined in the company.

Quick creation of the assessment forms tailored for the specific job positions, without the IT department assistance or software producer's support.

Increase the employee engagement, performance and potential.

02. Functionality of the Assessment module

03. Benefits of the Assessment module

Time and cost savings	Result quality improvement	Employee motivation increase
Common platform for HR processes	Goals and development plans adapted to the company priorities	Evaluation forms accessed anywhere and anytime
Comprehensive supervision of the evaluation process	Evaluation form templates tailored for specific positions and competencies model	Adaptation of employee development plans
Online evaluation form	One platform for all employees' data	Simplicity and clarity of the process
